Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2823

Claims 1 and 3-14 are objected to because of the following informalities: In claims 1 and 3-14 is should be made clear that photogeneration is a capability of the channels and not that the act of photogeneration is part of the required method steps through use of "channels that are capable of photogeneration" or equivalent terminology. Appropriate correction is required. The rejection below is predicated on the claims not being drawn to both a method of making and a method of using the device by the above change being made.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 3-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stevens in view of Tobin et al and Gardner and optionally in view of Dyck.

The rejection is maintained as stated in the paper mailed 9/21/04. Also see MPEP 2144.04(II)(A).

Applicant's argument regarding the omission of the antiblooming implant is addressed in the statement of the rejection above. The portions of the disclosure of Stevens pointed to do not indicate that the device would be nonoperative in the absence of the antiblooming implant but instead indicate a preference for forming the antiblooming implant disclosed by Stevens. One of ordinary skill in the art would have had a reasonable expectation of success in forming the CCD of Stevens without forming the antiblooming implant with the expectation that the concomitant advantages of forming the antiblooming implant would not be obtained. Also see the reasoning and teachings of Dyck et al which discloses that CCD image sensors need not contain an antiblooming implant stated in the rejection above.

Art Unit: 2823

Applicant's argument regarding Dyck is not persuasive because the reference is applied in a rejection under 35 USC 103. One cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Fourson whose telephone number is (571) 272-1860. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri, can be reached on (571) 272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
